

GIS Services

City of Richmond, California

GIS Services is pleased to offer the following suite of products and services. For fees, see the back of this page.

Custom Maps

Custom maps are designed to customer specifications. They are available in a variety of sizes. For an additional fee, a custom map can also be provided in electronic format such as a “.pdf” on a CD or via ftp.

The fees for custom map creation depend on desired size and any additional features requested such as aerial photography. Additional copies of the custom map may also be purchased.

Costs for custom map creation assume up to one hour of labor.

Predefined Maps

Predefined maps are drawn from a gallery of existing pre-formatted maps. They are available in a variety of sizes. For an additional fee, a predefined map can also be provided in electronic format such as a “.pdf” on a CD or via ftp.

The fees for predefined map creation depend on map size and any additional features requested such as aerial photography. Additional copies of the custom map may also be purchased.

Costs for predefined map creation assume no customization.

General GIS Services

GIS staff can service any GIS-related customer request. Other data analysis services are also available.

Services are charged at the hourly rate of \$95 per hour.

GIS stands for “**Geographic Information Systems.**” GIS stores information about the world as a collection of layers that can be linked together by geography. This tool is invaluable for solving many municipal needs such as inventorying infrastructure, planning capital improvements, and tracking land use changes.

Online Interactive Map Services

The following interactive mapping applications are available at our GIS website:

**[www.ci.richmond.ca.us/
index.aspx?NID=2741](http://www.ci.richmond.ca.us/index.aspx?NID=2741)**

- GIS Viewer
- Property Information
- Zoning Information
- Neighborhood Services
- City from the Air
